Goodness!!

People have described SFD as "the modern day love child of Sly & The Family Stone, Rick James and The Bee Gees". They've been serving this particular flavor since 2005 and over the years, the roster of players has been a virtual "who's who" of the Northeastern Region's pro musician circuit. These players have shared the stage with such artists as Prince, The Ohio Players, Earth, Wind & Fire, Rick James, Whitney Houston, Gloria Gaynor and many many more...

Superflydisco is just what you need to bring that party to the next level!

A 10-piece live band with horns playing all the funky disco 70's hits that create an energy that's nearly impossible to resist.
